What Stimulates the Right Delivery System for.....

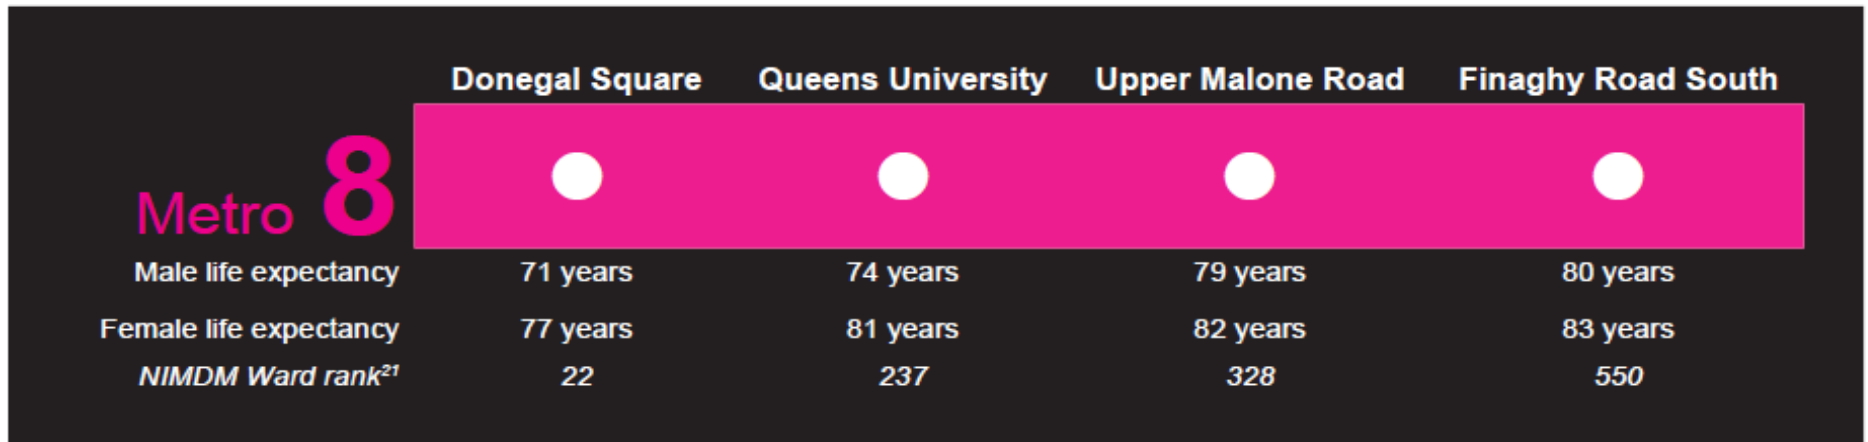

Preventing Early Mortality?

Systems change within organisations.

What Stimulates the Right Delivery System for.....

Preventing Early Mortality?

Change across the healthcare system.

Population medicine

“Clinicians have a responsibility to the population they serve, as well as to the individual patients who happen to have been referred to them.”

“Just as they feel responsible for providing safe, effective and empathetic care to the individual the clinician feels responsible for making the best use of the resources available for all the people with the health problem for which they have expertise in the population they serve.”

J A Muir Gray

What Stimulates the Right Delivery System for.....

Preventing Early Mortality?

Change across the healthcare system.

What Stimulates the Right Delivery System for.....

Preventing Early Mortality?

Multiagency and intersectoral working.

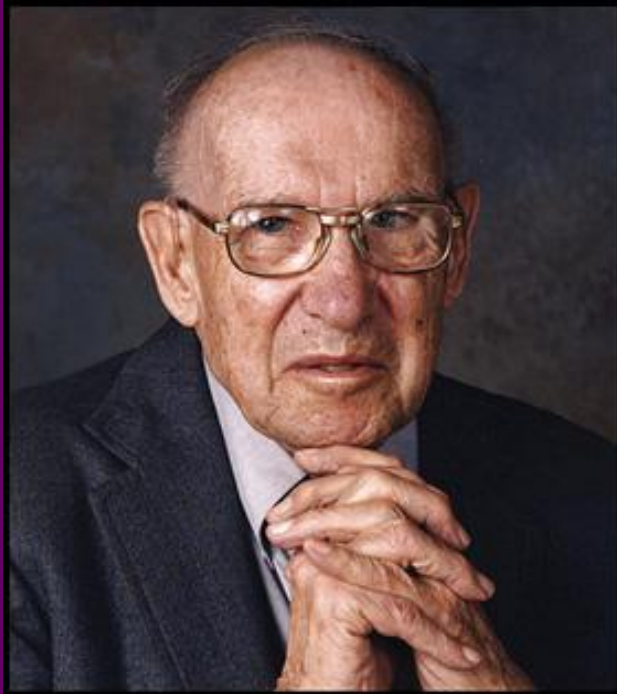

What Stimulates the Right Delivery System for.....

Preventing Early Mortality?

Multiagency and Intersectoral working.

Accept the fact that we have to
treat almost anybody as a
volunteer.

Peter Drucker
